

Siouxland District Health Department tracks and investigates many diseases that occur in Woodbury County residents.

Iowa law requires physicians and laboratories to report certain diseases. However, if the doctor can be assured that the laboratory they use is reporting, that is sufficient.

For a list of reportable diseases, [click here](#) .

Phone numbers for 24/7 surveillance and reporting can be found in the green bar at the top of the website as well as the left hand side of each page of this site.

[Click here](#) to view the Disease Tracker to find out how many cases of certain diseases have been reported in Woodbury County this year and to learn which illness require SDHD to investigate or enforce exclusions to prevent the spread of the illness.
